- unburdening, just taxing
- economic expansion
- multifarious opportunities for the multitude
- development of a beautiful nation

## VOTE for US

The pollution has been accumulating and destroying our atmosphere, our environment. It is my promise that all this will subside. This is a long-term process to continue for years, ensuring the protection of our home, our Earth.

## VOTE for HEALTH

I will ensure that money will be invested more wisely to add more coverage to benefit the citizens in need. Healthcare is NOT to be considered as a privilege under my presidency and will be provided to ALL.

## VOTE for CRIMINAL JUSTICE REFORM

We will be moving away from the “eye for an eye” mentality. It does not reduce the crime rate and sends the wrong message.

We will not kill to demonstrate that killing is wrong. We, as a nation, are better than that.
