PRIME MINISTER MODI CALLS OUT NORTH ATLANTIC UNION

Breaking News

CONGRESSWOMAN REBECCA
MONICA FURMAN

Prime Minister and presidential candidate Kartika Modi had some harsh words for the North Atlantic Union. Recently she was meeting with Russian Ambassador Yuri Maximov and Chinese Ambassador Wen Zhang to discuss the Gozeria Peace Agreement.

“Gozeria is part of the North Atlantic Union, yet where were the other union members in their time of need? Not one of them came to the defense of Gozeria. But we did. The union members had nothing but empty words. Yet, we pledged our support in the form of humanitarian aid. The brave members of our Congress were willing to act. What we need is action, not harsh condemnations. We were willing to help Gozeria despite the draconian tariffs that they place on our goods which make it impossible to do business with them. We came to their aid not out of financial or partisan interest, but because it was the right thing to do. This peace agreement is also the right thing and we are trying our best to hammer out the details that will benefit all parties involved and their respective people. There are those whose actions will sabotage this peace, but we will not let them. Peace will prevail.”

North Korea May be Using Oceans to Hide its Submarines

CONGRESSWOMAN REBECCA
MONICA FURMAN

New shocking report by the FBI shows definitive proof that North Korea is hiding its submarines in the Yellow Sea. It was already found last August of North Korea's plan to have submarines planted all around the world. But now with this a complete overstep on the North Koreans' part. This revelation has further convinced nations that a peace agreement between them and the secluded nation are hopeless and impossible. This discovery was found after a Russian spy dolphin's camera discovered a large yellow submarine with North Korean flags all over it. The dolphin unfortunately denied an interview but 3rd party accounts of the event describe the agent shocked.

Representative Sumner threw his support behind Representative Nguyen: “I think her track record speaks for itself. She’s the only candidate who can speak for the common people and not the corporate interests. She’s got some great ideas.”

Presidential candidate Tilda Barswell had this to say:

“This peace agreement is more corporate welfare for the military industrial complex and does little to actually help the people of our country. Modi seems to be in the pocket of Russia and China. We need a leader who will act for the interest of all people in our country, not just the wealthy business interests. We should join the North Atlantic Union and scuttle this corporate handout disguised as a peace agreement.”

Region 3 President Benjamin Perry commented:

“This agreement is awful. Prime Minister Modi is a disgrace and should step down immediately. I like what I’m seeing from this Representative Karimova. She’s got some good ideas. We need some fresh leadership like that. Modi is part of the Bergman regime. She’s corrupt.”

Representative Merry Clayton said:

“I think the peace agreement is a good deal. I think its flawed, but it’s the best deal we’re going to get. And President Perry has always been the business competitor of Mayor Hedberg, so of course he’s going to say what he said. He’s just throwing shade to get some press. He gets that way when nobody is paying attention to him for ten minutes. I think Prime Minister Modi is doing a great job and she should be commended, especially since she’s had to step up after what happened with Bergman and Pinderson. None of the actions that resulted in their removal from office were ever traced back to Modi, and we need to be clear about that. I also think Representative Karimova is doing a great job, and I’ve been fortunate to work alongside both her and Representative Nguyen. Both of them are excellent candidates and either one would make a good president.”

When pressed on who she would be supporting, Representative Clayton replied “We’ll see what happens. We’ve got a debate coming up Friday and it will be a great opportunity for the candidates to get their ideas out there. I’ll let you know after I hear what they have to say.”

Representative Zenyatta Mondatta says she supports Representative Kaur for President.

“We don’t always agree, but I think she’s got the leadership skills and the understanding to know what works and what doesn’t. She’ll make a wonderful president. She has my full support.” With the peace agreement going to a vote stock in Solid State Electronics has gone up 7%. And that wasn’t the only thing to go up. Prime Minister Modi, whose popularity in the wake of the Pinderson/Bergman scandal had dropped to 21%, saw her popularity shoot up to 57% after negotiating the terms of the peace agreement.
